Handling web development plugins for Adobe (Dreamweaver, flash, fireworks, etc). LAMP, AWS, DART, FLUTTER.

Able to perform administration tasks on development servers and SQL databases in general. Leadership skills extensive capabilities to manage workgroups and engineering teams.

Knowledge in the area of assembly design and management of wired and wireless corporate networks, implementation of radio frequency-range, design and installation of microwave antennas for different frequencies.

Work performed with equipment brands: Cisco, Tsunami, POLYCOM, Alvarion, Nera, among other brands.

Mounting and setting up satellite dishes point 1 way and 2 way.

Design and development of intelligent systems automation environments CRESTRON brand equipment and the full range of products manufacturer.

WORK EXPERIENCE

Country: Colombia

VivaCorp.org

Development of multi real estate portals.

Vivalasabana.com vivadubai.net vivabogotadc.com vivalondon.net vivaabudhavi.com, etc.

AVD Colombia SAS

Implementation crisis center systems, implementation of videoconferencing and telepresence automated, support control systems in home and corporate clients. Polycom infrastructure audits and implementations Crestron automation, among others.

Web Factory SAS

Development of information systems of high complexity, developed in different languages, oop, in MVC structure, and administration and standardization of databases in general.

Developed systems:

Quieroremodelar.com, trabajoxhoras.com, firmetranquilo.com, claseprivada.com, politecnicolosalpes.com among other government works.

Ingeniosoft.com (Somoxoft)

Development of management systems highly complex security systems in general.

Meaningful work: GIH, property management system and mortgage, which was created six main modules 2 for Colpatria Bank (Heads of deeds and legalizers), one for external lawyers, one for appraisers, one for the Notary 41 of Bogotá and one for administrative GIH company. www.gihco.co

internetya.co

Website development and content management systems and web media management, developments in actionscript, ajax, php, and MySQL database under Linux, security systems in general.

Meaningful work:

alumni.unisabana.edu.co

forum.unisabana.edu.co

Among other projects.

imaginamos.com

Website development and content management systems and web media management, developments in actionscript, ajax, php, and MySQL database under Linux, security systems in general.

Meaningful work:

ventrevista.com, ventrevista.es, ventrevista.de, ventrevista.hu, ventrevista.pt, elecciones.com.co, viventanet.com, meals.com.co, conexionhispana.com, that stand out among more than 300 projects.

INDUSAT LTDA.**Manager technology (February 01 of 2003 - January 31 of 2008)**

- The functions assigned for the post of technical director as ensure new networks design installation and new customer management, after-sales support installation and commissioning of satellite systems throughout Colombia, training and technical support engineers resellers in different countries of South America.
- Study, design and programming of the system of company information which'm driving the different modules such as the commercial support module, billing module, contract management module, and portfolio accounting, client management and banking products among others, implementation of the system to the active elements of the networks to automatically manage cuts and reconnections.
- Development and implementation of the Site for outpatient management with meshed with system information system.

WaWNetworks (Group: LatCom SA)**Manager technology (Mao 15 of 2001 – January 31 of 2003)**

- Development and implementation of dedicated Internet complete system for homes and offices in areas of Bogota.

ALDATO LTDA.

- Implementation of e-mail servers and validation system for flush systems in linux servers with basic management system.

COLOMBIA ON LINE - ENGINEERING ASSISTANT

Programming php pages

Relational Database Design, MySQL, attend the requirements presented in the engineering area.

STUDIES

Institution: SANTO TOMAS UNIVERSITY (Bogotá, Colombia)

Career: electronic Engineer

Date 1995-2000

Institution: ICM Bogotá **Career:** Analyst Technologist Systems Designer

Fecha de inicio 1993 - 1994

Institution: Crestron Technical Institute – Mexico DF

Career: CTI-P101 Foundations of Crestron Programming
And, Crestron System Design

SOME SEMINARS

- Programming software for graphic design websites.
- Network installation and structured cabling.
- Creative problem solving.
- Satellite Networks Ku and Ka band.
- Marketing - Focus.
- Economic Evaluation of Projects.
- Dart – Flutter, udeMy.
- Webapps, udeMy.
